**Detailed Action**

***Drawings***

The Examiner accepts the drawings filed on November 21, 2008.

***Allowable Subject Matter***

Claims 53, 90-93, 95-96, 102-125, and 129-179 are allowed.

The following is an examiner's statement of reasons for allowance: The present invention generally discloses a mutual fund securitization process permitting the trading of open end mutual funds and linked derivative securities on or off the floor of a National Securities Exchange. However, the prior arts of record fail to teach, singly or in combination, a processor for selecting at least two of the securities for inclusion in the leveraged exchange traded product based on market capitalization data contained in the database, the processor weighting the selected securities within the exchange traded product based on the set of user defined criteria; wherein the leveraged exchange traded product is configured for trading of shares of the leveraged exchange traded product at a real time determined price of the shares related to the underlying price of each of the selected securities comprising the leveraged exchange traded product and related to the respective weightings of the selected securities.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
